Committee Discusses Airport Improvements

Portland International Airport Community Advisory Committee meets from 1:30-4:30 p.m. June 25 at the Port of Portland headquarters, 7200 NE Airport Way. The community is invited and public comment is welcome. The meeting is in the Chinook conference room on the eighth floor.

Agenda highlights include a presentation on PDXNext, a program consisting of a host of PDX improvements planned over the next several years, aimed at maximizing airport efficiency and customer service. Also planned is a discussion of PDX implications associated with the streaked horned lark listing as a threatened species under the Endangered Species Act. Some of the lark's habitat is located on the airport's southwest airfield. The full meeting agenda is available at www.portofportland.com/PDX_CAC_Agenda.aspx.

The 30-member advisory committee is an outgrowth of Airport Futures—a three-year planning process which created a long-range plan for PDX. The committee is charged with providing meaningful input on airport-related planning and development, and overseeing implementation of the Airport Futures plan. The committee is sponsored by three entities: City of Portland, Port of Portland and City of Vancouver, and meets quarterly.
