

## **PORT OF PORTLAND COMMISSION POLICY**

### **COMMISSION POLICY ON ART IN PORT FACILITIES**

**POLICY NO. 6.1.12**

Approved Commission Meeting of January 13, 1999

The Port of Portland is committed to incorporating art features and finishes, whenever possible, in the architectural design of its publicly used facilities in order to reflect the Port's mission, the rich culture of the Northwest region and the people the agency serves. When projects do not allow art to be incorporated in the facility design, the Port may commission or purchase art.

When commissioning or purchasing art, the Port of Portland will consult with members of the regional arts community in an effort to match appropriate works of art to a designated facility. It is the intention of the Port of Portland to utilize local and regional artisans whenever possible to illustrate regional themes in Port facilities.
